Carrick Read is a long-established business law firm based in the centre of Leeds and has provided legal advice, support and assistance to AIMS and its members for many years.

The firm has expertise in the areas of company, commercial and corporate law (including all contractual issues), insolvency and finance related matters and has successfully represented AIMS members in litigation, mediation and ADR disputes in addition to providing a cost effective, computerised debt recovery service.

We have a close relationship with AIMS and bring an entrepreneurial approach to our services which we believe parallels the approach of many of the businesses in the AIMS membership.

Carrick Read looks forward to being of assistance in your business and commercial affairs.
