

Are you looking for a leading insolvency lawyer?
Do you have a debt recovery issue?
Do you need support with credit control?
I can help you.

Over the years I have built up a reputation for leading a 'first rate' team (Legal 500, 2015). I've helped clients including:

- large international accountancy practices
- small niche insolvency practitioners
- state regulatory bodies
- local authorities
- banks
- private individuals.

My work involves contentious and non-contentious insolvency, asset recoveries and advising creditors in all aspects of insolvency. I also specialise in the recovery of assets outside of the jurisdiction. I have advised local authorities about debt recovery and using insolvency for collection.

I have experience of handling numerous heavyweight disputes, plus regulatory experience gained within the meat industry. This includes dealing with industry bodies such as Defra.
